

B-Safe ROOFERS KIT 6 STEP GUIDE

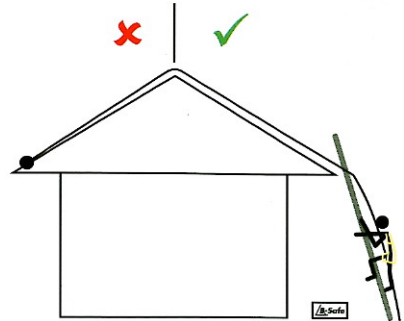

Set ladder and establish Anchor then Connect Rope Line
(use attachment strap or T Bar Anchor)

Test connection, move adjuster to knot end and throw to opposite side
(use of throw line and sandbag is recommended)

Relocate ladder, pull rope tight, don harness, connect shock absorber/lanyard to adjuster and squat to test taughtness of ropeline

Climb ladder moving adjuster as you climb to minimise free fall before the shock absorber would be deployed

Take care when transferring to roof Establish Restraint Technique position

Once Restraint Technique position is established work within a 60° arc, avoiding pendulum swing falls

NOTE: THERE IS NO SUBSTITUTE FOR COMPETENCY BASE TRAINING
